College Academic Regulations (Sample)

Document status: fictional sample for technical demonstration only.

1. Attendance Requirement

Students must maintain a minimum of 75% attendance in each course during a semester to be eligible to appear for the end-semester examination. Attendance is calculated using the total number of hours conducted for that course. Students whose attendance is below 75% may be detained from the examination, subject to any officially approved condonation or exception under applicable university rules.

2. Attendance Monitoring

Course instructors shall record attendance for every scheduled class. The department office shall review attendance records at regular intervals and inform students who are at risk of falling below the minimum requirement. Students should contact their class advisor promptly if an attendance entry appears incorrect.

3. Leave and Absence

A leave request does not automatically convert an absence into attendance. Students must submit leave applications and supporting documents to the appropriate college office. Approval is subject to the college's applicable rules.

4. Examination Eligibility

In addition to the attendance requirement, students must satisfy examination registration, fee payment, and other academic requirements notified by the college.

5. Internal Assessment

Internal assessment may include tests, assignments, laboratory work, presentations, and participation as specified by the department. Course instructors shall communicate assessment components at the beginning of the semester.

6. Bonafide Certificate

Students may apply for a bonafide certificate through the student section. The application should include the student's name, register number, department, year of study, and purpose. Normal processing time is three working days after submission of a complete application.

7. Library Rules

Students must return borrowed books on or before the due date. A sample overdue fine of Rs. 2 per book per day applies after the due date. Reference books may be subject to separate lending restrictions.
